RE: Rosemont Copper Company; Request for Information under CWA Section 308(a)  
EPA Docket No. CWA-308-9-22-032

Dear Mr. McWhorter:

By letter signed on August 3, 2022, James Marincola requested information about “the work . . . planned or performed since at least April 22, 2022 at a project site known as Rosemont Copper World in Pima County, Arizona,” which Mr. Marincola asserted may have involved the placement of materials into waters of the U.S. (“the Request for Information”). The Request for Information asked us to provide a response to the questions in that document by August 31, 2022. We requested and were granted an additional 30 days to respond, extending the deadline to September 30, 2022.

Mr. Marincola’s letter indicated that the response to the Request for Information should be provided to you by email. Accordingly, we are responding to you by email.

Rosemont’s response consists of the attached document entitled Response to Request for Information, dated September 30, 2022, which contains responses to each question in the Request for Information and background information to assist you in understanding Rosemont’s mining activities. Documents that are responsive to the Request for Information are provided with this letter by means of a Box site. The link is:

If you experience any difficulties accessing the documents at these remote sites, please let us know and we will work with you to address the problem.

Mr. Marincola also requested that we provide a certification of the responses to the Request for Information. This certification is provided below. We note, however, that the Request for Information is problematic in certain respects, and, as a result, our responses include legal objections. These objections were provided by our legal counsel and are not being certified. In addition, while our responses are believed to be true and accurate, the vague nature of some of your agency's requests and the erroneous assumptions that they contain make responding to many of the requests problematic. These problems are discussed in more detail in the attached Response to Request for Information.

Please contact me if you have any questions or would like to discuss this response in greater detail. You may also contact our in-house attorney Matt Bingham at 520-495-3523 or at [matt.bingham@hudbayminerals.com](mailto:matt.bingham@hudbayminerals.com).

Rosemont has retained the Fennemore law firm to assist the company on this matter. They are available to discuss the objections in our responses to the Request for Information and any legal issues that are raised in the responses. Please direct all communications to the following attorneys:

Finally, we are enclosing for your information a copy of a FOIA request that Rosemont has submitted to EPA for records, including documents and communications, received by the agency from January 1, 2022 to the present that concern the Copper World Project. We wanted to alert you to this request as these records are likely in your possession or control.

Thank you for your cooperation.

Sincerely,

Javier Del Rio  
VP, Peru and USA

### CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction and the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
